COATINGS AND  
BLASTING SERVICES

Making Buildings Beautiful Again

# Facade Blasting and Cleaning

Our highly trained facade blasting technicians will make sure your building looks new again.

They can utilise the specialist equipment to get into all angles nooks and crevices leaving no dirt or grime untouched.

Our systems can remove all algae, carbon deposits and other contaminants resulting in a new and improved look for your tired old building.

**DOFF**

**TORC**  
The only system to be approved by the  
International Council of Stone-Protecting Societies

**As experienced and approved contractors for the industry leading DOFF and TORC Systems, we have the knowledge of working on all types of stone and face brickwork.**

# Envelope Refurbishment and Re-spraying

Does your building look old and tired has mother nature taken its toll on its appearance, faded paint work, scratches dents and damage or even vandalism.

Don't despair our dedicated facade refurbishment specialist teams will help to restore character and presence to your tired cladding windows and doors,

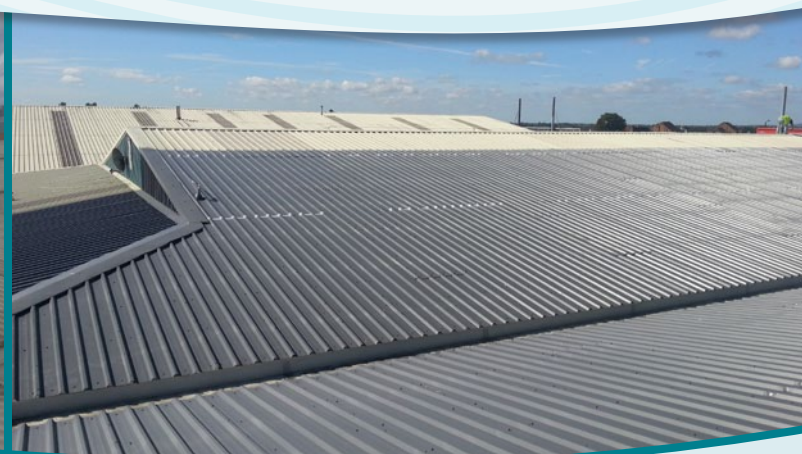

We are approved applicators for the TATA Steel approved Akzo Nobel Steelseal coatings systems, which are tailored to fit all types of facade refurbishment projects, and come with up to 10yrs guarantee.

**AkzoNobel**

**We can carry out the works to  
a programme and schedule to  
suit your needs.**

# Roof Re-sealing and Refurbishment

If your roof is over 15yrs old you could be suffering with leaks and edge corrosion problems.

In our experience the main cause for this problem is a poor maintenance regime and coating failure, if left untreated not only will the problem get worse but under extreme circumstances the roof may need to be replaced

We can resolve these problems utilising the market leading Seamsil® and Delcote® products, we can treat all cut edge corrosion, gutter leaks and relining and also re-seal cladded and asbestos cement roofs.

**Seamsil®**  
**Delcote®**

**All our works are manufacturer approved with up to 15yrs guarantee.**

# Graffiti and Paint Removal

Has your building been subjected to unwanted artwork Graffiti or gang symbols or do you just want to go back to a stone finish?

We have the solution to your problem, utilising both our high temperature low pressure and media blasting graffiti removal systems, we can remove all types of synthetic coatings, leaving the substrate looking like new with no adverse effects to the original surface.

**Call us today for a free,  
no-obligation quote**
